

**In the Abstract**

Please replace the Abstract of the Disclosure with the following amended Abstract:

~~The invention relates to a~~ A three-dimensional moulded planar cable, ~~comprising~~ includes a laminate made from at least one conductor track, bonded between two insulation layers and at least one support layer, connected to each other by ~~means of~~ an adhesive layer. The cable is ~~and~~ applied to a positive moulding tool, brought into shape by the application of heat and/or radiation and/or pressure and fixed in the three-dimensional shape thereof by cooling to below the glass temperature  $T_g$  of the adhesive layer or by hardening of the adhesive layer.
